EDUCATION

University of California, Berkeley **Berkeley, CA**

- **Major:** B.A. Data Science, Cognitive Science *Expected Grad 2028*
- **Coursework:** Data Structures, Computational Structures in Data Science, Linear Algebra and Differential Equations, Discrete Mathematics, Computational Models of Cognition, Introduction to Cognitive Science, Foundations of Data Science
- **Cumulative GPA:** 3.78
- **Honors:** CAA Leadership Scholarship, Albert Matthies Memorial Scholarship, Helen Roe Humanitarian Scholarship, National First-Generation Recognition Program, California Scholarship Federation, National Honor Society (NHS), Rotary Student Award

PROFESSIONAL EXPERIENCE

UC Berkeley Center for Teaching & Learning **Los Angeles, CA**

Undergraduate Research Assistant | Data Analytics *06/2026 – Present*

- Conduct focus groups and surveys to evaluate how students and faculty use LLM grading and feedback tools to improve teaching
- Synthesize user feedback into stakeholder memos that help educators improve teaching and choose effective learning tools
- Analyze qualitative and quantitative feedback to identify patterns in student engagement, usability, and learning needs

UCSF Radiology Department **San Francisco, CA**

Machine Learning Intern | Data Analytics *05/2026* – Present

- Develop machine-learning pipelines for MRI assessment and liver segmentation with model training, evaluation, and analysis
- Built a deep-learning pipeline using prostate MRI scans to classify diagnostic image quality and support consistent evaluation
- Trained and evaluated a model for liver segmentation and MRI scans using Dice scores for performance across patient data
- Analyzed failure cases and performance distributions to identify model limitations and guide future model iteration priorities

CTRL Robotics **Berkeley, CA**

Software Engineer Intern | Product & Operations *01/2026 – 05/2026*

- Analyzed hospital workflows and translated operator needs into product requirements for an autonomous robotics platform
- Redesigned mapping and navigation tools, improving usability by 25% and reducing navigation errors by 30%
- Coordinated with engineers to launch robot-selection and badge-registration features that simplified clinical operations

Streamind Health **Berkeley, CA**

Software Engineer Intern | Product Strategy *10/2025 – 05/2026*

- Led the laptop-to-mobile rollout of an rPPG biofeedback product, balancing user needs, feasibility, and signal accuracy
- Evaluated camera performance and signal-quality tradeoffs to guide key aspects of mobile product and engineering decisions
- Developed data capture and visualization features that translate physiological signals into information for therapists and patients

LEADERSHIP EXPERIENCE & INVOLVEMENT

Computational Biology Club **Berkeley, CA**

Internal Vice President *09/2025 – Present*

- Lead recruitment and internal operations for 90+ members, increasing applications by 200% through targeted outreach
- Coordinate project managers, officers, and committee member programs across multidisciplinary technical and research teams
- Implement structured workflows for recruiting, onboarding, team communication, and member engagement within organization

VAH Medical Organization **Los Angeles, CA**

Founder & President *10/2023 – 05/2025*

- Founded and scaled a 100+ member organization, recruiting 50+ students and programs with 20+ healthcare professionals
- Managed interviews, outreach initiatives, and event logistics to connect students with diverse healthcare professionals
- Planned shadowing programs and coordinated schedules across students, officers, speakers, and healthcare professionals

SKILLS AND INTERESTS

- **Technical:** Python, Java, JavaScript/TypeScript, React, Next.js, SQL, Git, GitHub, Excel, Canva, NumPy, pandas
- **Languages:** English (fluent), Mandarin (fluent), Cantonese (fluent), Spanish (basic)
- **Skills:** Mixed-methods research, data analysis, stakeholder interviews, process improvement, project management
- **Interests:** Consulting, Product Management, Health Tech, AI, Entrepreneurship
